SCHUBACH AVIATION ACQUIRES GULFSTREAM IV PRIVATE JET

SAN DIEGO – (June 10, 2009) – Schubach Aviation, San Diego’s leading on-demand air charter service company with operations at Palomar Airport and Lindberg Field, has added a Gulfstream IV private jet to its fleet of 23 luxury aircraft, announced Henry Schubach, president of the firm.

The Gulfstream IV is one of the world's most practical large-cabin business jets, boasting an impressive record for technical performance, safety and reliability. A high-speed, high altitude aircraft, the Gulfstream IV is propelled by twin Rolls-Royce turbofans that provide high thrust output with lower than normal noise emission.

With a range of 4,350 nautical miles and the roomiest cabin in its class, the new Gulfstream IV easily connects San Diego to Honolulu, New York to Frankfurt, or Chicago to Paris while providing a spacious and comfortable solution for short-range travel as well. With 157 square feet of cargo space, the aircraft can store enough luggage for long stayovers at virtually any destination at home or abroad.

Accommodating up to 14 passengers and three crew members, Schubach Aviation's Gulfstream IV is generously appointed with two lavatories, a full galley with an oven and microwave, a private lounge, an in-flight phone, two CD players, two DVD players, and air show capabilities.

With a cruising speed of 530 miles an hour at an average altitude of 45,000 feet, the Gulfstream IV model aircraft has set numerous records for speed and distance traveled around the world. Whatever the destination, Schubach Aviation's charter clients can be assured of getting there both comfortably and expeditiously.

The Gulfstream IV joins Schubach Aviation’s existing fleet of 23 private aircraft, which includes two wide-bodied Bombardier Challenger 601s; five Hawkers; a Lear 55, Lear 35, Lear 36 and Lear 60; several light-weight Citations, including two factory-new CJ3's; and a range of King Air turbo prop aircraft.
